EDUCATION

Singapore University of Technology and Design BEng. Computer Science	Singapore 2024 - 2028
School of InfoComm Technology - Ngee Ann Polytechnic Diploma in Information Technology <i>GPA: 3.73</i>	Singapore 2019 - 2022
School of Science and Technology, Singapore O-Levels	Singapore 2015 - 2018

WORK EXPERIENCE

Sign Pte Ltd <i>Software Engineer Intern</i>	Singapore March 2021 - August 2021
• Worked on both frontend (Elm) and backend (Node.js with Typescript) to add features and improve UI/UX of the Sign.net web app, such as adding Loading Skeletons, Email Confirmation to delete documents, Redirect on Login, and more. • Deployed internal server that fetches application activity and summarises them into Daily Reports for the sales team. • Created and maintained internal documentation using Markdown, and public documentation using Gitbook.	
Sign Pte Ltd <i>Intern</i>	Singapore September 2020 - October 2020
• Designed and coded email templates for app.sign.net's email notifications using MJML • Designed and captioned visuals using Canva for social media to update users with Sign.net news • Composed blog posts for www.sign.net to educate users on Sign.net's features • Created PowerPoint presentations for use at TechCrunch Disrupt 2020	
Tezos Southeast Asia <i>Intern</i>	Singapore September 2019 - June 2020
• Contributed to a web application using React.js, Node.js and Cloud Firestore • Stock-taking using Google Sheets • Researching and purchasing equipment	

ACADEMIC PROJECTS

ROOT Website <i>Nextjs, Supabase</i>	root.sutd.edu.sg
Maintained and added features to the SUTD ROOT website, such as Locker Booking, Login Portal and Migration to Supabase	
Connect 345 FPGA	
Built an Arcade Game using the Alchitry Au FPGA board. Learnt a lot about low level programming and the inner workings of computer architecture.	

PERSONAL PROJECTS

CIS Youth Hymnal <i>Hugo, HTML, CSS, Javascript</i>	github.com/church-sg/cis-youth-hymnal-v2
A PWA for church members to refer to hymn lyrics during worship	
Scripts For Fun <i>Golang, Python</i>	https://github.com/notyumin/scripts-for-fun/
A repository of scripts I wrote for fun and for learning. Highlights include a TUI Connect-4 game written in Golang, and a Countdown Game solver written in Python.	
Dotfiles	https://github.com/notyumin/dotfiles/
All my different config files, such as for Neovim, Tmux, Wezterm and more. Managed by GNU Stow.
